TSTTT Uherske Hradiste 2008 - Czech Rep., Grand Prix

A Czech researcher Tomas spent nearly two years in Thai and Laosan mountains in order to search for causes of wrong and violence that are done on the Akhas and their children. This dramatic documentary about a small mountain ethnic tribe is based on reality.

Special thanks to all Akhas and many other people without whom this film would never be created. Their names were kept back because of security reasons.
